Sight Word Tic-Tac-Toe

Choose a sight word and use it to play tic-tac-toe against a friend. Whoever gets three sight words in a row wins the round.

A 3x3 grid with a double border. The grid is composed of 9 squares. The border is made of two parallel black lines. The grid lines are also black and intersect at the center of each square.A 3x3 grid with a double border. The grid is composed of 9 squares. The border is made of two parallel black lines. The grid lines are also black and intersect at the center of each square.A 3x3 grid with a double border. The grid is composed of two horizontal lines and two vertical lines, creating a 3x3 array of squares. The lines are black and have a consistent thickness. The grid is centered within the page.A 3x3 grid with a double border. The grid is composed of 9 squares. The border is made of two parallel black lines. The grid lines are also black and intersect at the center of each square.
